

Drive-through COVID-19 testing available

Providence Alaska Medical Center is partnering with Alaska Native Medical Center, Alaska Regional Hospital and Anchorage Neighborhood Health Center to offer free drive-through COVID-19 testing to the community.

The testing is available beginning March 16 at 4115 Lake Otis Parkway, near the intersection of Lake Otis and East 42nd Avenue.

People must have a referral before being tested; those without a referral will not be tested. Referrals can be obtained during a live, phone or virtual appointment with a clinician.

Testing involves collecting a swab from the nose, which is then sent to a lab for testing. People will be contacted with results as soon as they are available.

Hours: 9 a.m.-7 p.m. seven days a week; photo ID required. For the safety of you and others, please follow marked traffic directions at the test-collection site.
